****NOTE**** There is an inexpensive all-in-one "lightroom style" photo editing program called Cyberlink PhotoDirector that is available for both Windows and Mac computers that lets users achieve some of the same effects as Photoshop (like special color filters). It also includes a basic photo-collage maker. It is free from CyLink and has some limitations on features, but for most people, this is a "starter" program that can give you a feel for the editing process.

What's New In?

Authored by Steve Hanley of Goodstuff via Streetinsider.com, Three years ago the greatest football player in the world played at the highest level. Now he's directing traffic. Steph Curry of the Golden State Warriors is a two-time MVP, a two-time NBA scoring champion, a three-time NBA All-Star, an NBA champion and a member of the Basketball Hall of Fame. All in the face of chronic injuries and a body that has never quite fit him properly. It's hard to imagine that this once-great shooter is now a rookie. But that's exactly what Curry is, an apparent perennial "rookie of the year" who has impressed everyone with his shooting. Just when you had Curry figured for another year, he went out and performed at an MVP-like level in the NBA Finals, hitting a game-winner to send the Warriors to the championship over the Cavs. Curry has been described by most media outlets as the greatest shooter in NBA history. The man shoots under and around the rim like no other player in the league, making him an absolute terror to backcourt defenders. But that's not the whole story, and it's also not how Curry is perceived. Many believe that he can be a force in other areas of the game. Curry can and has taken the reins of a complete team. He's a complete player, having a high basketball IQ and the ability to dissect a defense. When the Warriors needed someone to run the offense, he's been willing to wear the burden of leadership. And he's a leader because he actually understands what he's talking about. He's an analyst's nightmare. And at the age of 31, he's already been in the league for 15 seasons. In the last six, he's had to endure the constant scrutiny that comes along with being The One on His Team. And he has been the only member of the Warriors to be able to consistently perform at a high level. Although Kevin Durant (who is also an MVP candidate) and Draymond Green have been splendid, the Warriors have been unable to close games down the stretch as a team. Curry has the aura of a superstar, and that's one reason the Warriors have been able to keep Durant coming back to play. Durant has a huge ego and has clashed with his coach at times. Now here's where we get to the point
