Create a new schedule or edit a previously saved one Create a schedule based on a predetermined plan or let the system create a new one for you. Manage multiple event plans Choose plans by categories or create a new one. Manage bookings Create and save your bookings, from passwords to payment details. Booking details can be imported to excel sheet Bookings information can be imported to your excel spreadsheet. Booking passwords can be generated automatically or manually. Scheduling system Pricing: Create a Master Schedule See prices in any currency you prefer Initially, the extension will convert all prices to euros; this might not be what you want, so go ahead and access the settings to customize it. You can choose from a large number of popular currencies, and even more are available if you provide a free Fixer.io API key. All prices are converted as soon as the page is loaded, and the currency tag is displayed after the value. You can move it to the left if you prefer, but changing the setting is a bit confusing. You can click the converted price to see the original value, but this sometimes leads to you having to follow the link to see the initial price. Quite a few customization
